

Contract Metered Cabinet Water Softener

DWS

Clack Water Softener

The Clack Water Softener is the most reliable system available on the market today. The Clack control valve has been used throughout the world for over 40 years and has been found to be trouble free and user friendly. The Clack Cabinet Water Softener comes in a range of sizes suitable for a single tap to a large family home. Speak with our water treatment professionals on the right size softener for you.

Soft Water Benefits

- › Baths, shower enclosures and sinks are no longer stained by mineral deposits
- › Usage and spend on detergents and shampoos is reduced by up to 50%
- › Appliances last longer and maintenance costs reduced
- › Energy bills can be reduced by at least 10%
- › Hair feels softer and clothes are softer and brighter
- › Time is saved cleaning and no need to use harsh detergents
- › Skin condition can improve noticeably. People with eczema have seen significant improvements with the use of soft water
